DETAILED ACTION

Information Disclosure Statement

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Allowable Subject Matter

2. Claims 1-4 are allowed.

3. The following is an examiner's statement of reasons for allowance: Applicant's invention is a smoke guiding machine that functions to create air flows to guide smoke to the exhaust hood of gas stoves. The prior art does not teach or suggest applicant's claimed structure of this smoke guiding means which includes a device for adjusting the wind speed and structure allowing the machine to be adjusted to fit gas stoves of various dimensions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3749

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. *Dosmar, Marino, Von Kohorn, Cote, Suen*, and JP 2-272242 are included to show the state of the art concerning smoke guides and deflectors.
